

# JERI BAKER

*Hair Dept. Head/ Hair Stylist*

*IATSE local #706*

With 29 years experience as professional Hair Stylist, Jeri Baker now works for A-list directors in Features and Television and as Personal Hair Stylist for stars including Scarlett Johansson, Paul Rudd and Hilary Swank. Before working in this industry Jeri was a surgical nurse for fifteen years. As she words it, "The universe threw me a curveball and I connected with it". It was Robert Conrad who gave her the first job in this business, first as his front office secretary answering phones. One day Bob gave her a script to read and asked her what she thought. With her background, she explained that medically it was erroneous. With her credibility and knowledge, Jeri became the shows Medical Advisor. That was followed by beauty school, then Makeup schooling and soon she was working with hair on sets. Jeri seeks projects that are character driven, whether smaller intimate stories or big Marvel films. Creating a character with an actor is exciting to Jeri. To her it's telling a story as we express what happens to us and who we are in the way we look. Jeri is Los Angeles based but happy to travel.
