Production Sound Mixer

Member, IATSE 695

Emmy and C.A.S. Award winner John Bauman, a third generation sound mixer, grew up on set. He parlayed his early exposure into a remarkably diverse background, supplementing his early sound career by reading/writing scripts, picture/sound editing and assistant directing. Twenty years later, with over 30,000 hours of production sound experience, he's heard it all. John's comprehensive knowledge and penchant for storytelling give him a film maker's approach, enabling him to create the best possible sound experience for producers, directors and the audience. Bauman and his crew bring knowledge, discretion, skill, talent, and youthful enthusiasm to every show. John is Los Angeles based and happy to travel.
